business news ELECTROLUX

Electrolux Macedonia is socially active within its operating surroundings; it actively participates in expositions of its field, in association events, in cooking competitions, in the establishment of training seminars and in many other events. The company attends all the foreign expositions of its field and it enriches the range of the offered items with new ones.

partnerships

The choice of eminent partners became one of the most fundamental and critical stages in the development of Electrolux Macedonia. Thanks to the even organization of its infrastructure departments, the company managed to earn the trust of the most eminent foreign factories and their representation in the area of Skopje. Today, it is one of the chief Macedonia distributors-representatives of , the leading factory of professional equipment.
